PROGRAM OF SYMPOSIA
(update May 30)

THURSDAY, JUNE 28  13.30-15.00
Room 1.1 - NABUCCO

Psychosocial predictors of outcome after transplantation

CHAIR: Britta S. Bürker, University of Oslo and Oslo University Hospital, Oslo, Norway;
Terry D. Schneekloth, Mayo Clinic Rochester, Rochester, Minnesota, USA

SPEAKERS:
1. José R. Maldonado, Stanford University, Stanford, California, USA
The Stanford Integrated Psychosocial Assessment for Transplantation (SiPAT): A Five-year follow up Prospective Study of Medical & Psychosocial Outcomes

2. Terry D. Schneekloth, Mayo Clinic Rochester, Rochester, Minnesota, USA
Impact of Pre- and Post-liver Transplant Addiction Treatment and AA Attendance on Outcomes for Recipients with Alcoholic Liver Disease

3. José R. Maldonado, Stanford University, Stanford, California, USA
Delirium after Lung Transplantation: Association with Recipient Characteristics, Hospital Resource Utilization, and Mortality

4. Britta S. Bürker, University of Oslo and Oslo University Hospital, Oslo, Norway
Do different dimensions of depression predict mortality after heart transplantation in different ways?

5. David Banayan, Rush University Medical Center, University Transplant Program, Chicago
A journey in inter-professional quality improvement in transplant psychiatry: psychiatrist bridging the divide across disciplines

Room T2-T3 – AIDA

Effectiveness of Interventions in Consultation-Liaison Psychiatry and Psychosomatics

CHAIR: Wolfgang Söllner, Paracelsus Medical University, General Hospital Nuremberg, Germany

SPEAKERS:
1. Michael Sharpe, University of Oxford, UK
Does inpatient consultation – liaison psychiatry work? A review of the evidence and rationale for a new model

2. Albert Leentjens, University of Maastricht, The Netherlands
Proactive psychiatric consultation in general hospital: a systematic review.

3. Markus M Müller, Barbara Stein, Lisa K. Meyer, Wolfgang Söllner, and the C-L guidelines work group, Paracelsus Medical University, General Hospital Nuremberg, Germany
Psychiatric and psychosomatic consultation-liaison services in general hospitals: Systematic review and meta-analysis of effects on depression and anxiety

4. Helene Vulser, Paris Descartes University, Sorbonne Paris Cité, Faculty of Medicine, France

Associations between early consultation-liaison psychiatry intervention and subsequent length of stay in general hospital

Room 1.2 - RIGOLETTO

Crosstalk between mental health issues and Type 2 Diabetes mellitus: New insights 2018

CHAIR: Johannes Kruse, Ärztlicher Direktor der Klinik für Psychosomatik und Psychotherapie des Universitätsklinikum Gießen und Marburg GmbH Justus-Liebig-Universität Gießen und Philipps-Universität, Germany; Karl-Heinz Ladwig, Institute of Epidemiology, Mental Health Research Unit, Helmholtz Zentrum München, German Research Center for Environmental Health, Neuherberg, Germany

SPEAKERS:
1. Karl-Heinz Ladwig, Institute of Epidemiology, Mental Health Research Unit, Helmholtz Zentrum München, Germany

Life satisfaction is a protective factor against the onset of type 2 diabetes in men but not in women: findings from the MONICA/KORA cohort study

2. Hamimatunnisa Johar, Institute of Epidemiology, Mental Health Research Unit, Helmholtz Zentrum München, Germany

Late night salivary cortisol, stress-resilience and Type 2 diabetes mellitus. Findings from population-based KORA Age study

3. Saly Harajli, Institute of Epidemiology, Mental Health Research Unit, Helmholtz Zentrum München, German Research Center for Environmental Health, Neuherberg, Germany

The association between midlife type 2 diabetes and late-life cognitive status: findings from KORA-Age study

4. Seryan Atasoy, Institute of Epidemiology, Mental Health Research Unit, Helmholtz Zentrum München, German Research Center for Environmental Health, Neuherberg, Germany

Synergistic effect of severe depressed mood and obesity on type II diabetes incidence: findings from the MONICA/KORA cohort study

5. Alessandra Pokrajac-buljan, Faculty of Humanities and Social Sciences, University of Rijeka, Rijeka, Croatia

Gender Differences in Psychological functioning and causal beliefs in type 2 diabetes mellitus patients

Room 1.3 - TURANDOT

Medical Assistance in Dying: The Canadian Experience with Assisted Death

CHAIR: Elie Isenberg-Grzeda, University of Toronto, Toronto, Canada

SPEAKERS:
1. Alan Bates, BC Cancer, Vancouver, British Columbia, Canada

Background and Overview of Medical Assistance in Dying in Canada

2. Henry Blair, University of Toronto, Canada

Ethical, Medico-legal, and Policy Aspects of Medical Assistance in Dying in Canada

3. Elie Isenberg-Grzeda, University of Toronto, Canada

The Evolving Role of CL Psychiatrists in Medical Assistance in Dying
4. Eva Zsak, Semmelweis University, Institute of Behavioural Sciences, Budapest, Hungary
Supporting Hungarian health care operators in perinatal loss and grief

**Room T1 - CARMEN**

**A psychosomatic perspective of patients with chronic illnesses**

**CHAIR:** Fiammetta Cosci, Department of Health Sciences, University of Florence, Italy; Stephan Zipfel, Department of Psychosomatic Medicine, University Medical Hospital Tuebingen, Germany

**SPEAKERS:**
1. Katrin Giel, Department of Psychosomatic Medicine, University Medical Hospital Tuebingen, Germany
   Processing of emotional faces in patients with chronic pain disorder

2. Fiammetta Cosci, Department of Health Sciences, University of Florence, Italy
   Psychosomatic syndromes and mental pain in migraine patients

3. Piero Porcelli, Dept. Clinical and Health Psychology, University of Chieti, Italy
   Psychosomatic syndromes in patients with psoriasis

4. Oladapo Ekundayo, Multi-Organ Transplant Program and Division of Nephrology, University Health Network, Toronto, Canada
   Patient reported outcome measures information system (PROMIS) domains explain a large portion of variance in QOL in advanced CKD

5. Erika Marzola, Eating Disorders Center, Department of Neuroscience, University of Turin, Turin, Italy
   Anorexia nervosa: from psychosomatic families to affective temperaments. A psychobiological Perspective

**Room 1.4 - PARSIFAL**

**Communication skills training in medicine: the state of the art**

**CHAIR:** Luigi Grassi, Institute of Psychiatry, Dept. of Biomedical and Specialty Surgical Sciences, University of Ferrara, Ferrara, Italy

**SPEAKERS:**
1. Walter Baile, Interpersonal Communication And Relationship Enhancement (I*CARE) program Department of Behavioral Science, Division of Cancer Prevention and Population Sciences, MD Anderson Cancer Center and University of Texas, Houston, USA
   Enhancing empathy in communication training: the role of “doubling” and “role-reversal” In enactments of difficult conversations

2. Monika Keller, Division of Psychooncology, Department for Psychosomatic and General Clinical Medicine, University Hospital Heidelberg, Heidelberg, Germany.
   Future directions on communication in healthcare: the KoMPASS communication training

3. Frederic Stiefel, Psychiatric Liaison Service, Lausanne University Hospital, Les Allières, Lausanne-CHUV, Switzerland.
   Towards second generation communication skills training
4. Darius Razavi, Unité de Recherche en Psychosomatique et en Psycho-oncologie, Université Libre de Bruxelles, Brussels, Belgium; Institut Jules Bordet, Brussels, Belgium. 
The efficacy of communication skills trainings: where are we?

5. Alexandre Berney, Psychiatric Liaison Service, Lausanne University Hospital (CHUV), Switzerland 
Undergraduate training for medical students on breaking bad news in oncology: a continuation study exploring the patient perspective

**Room 1.5 - TRAVIATA**
Young Researchers Science Slam

**CHAIR:** Miriam Katharina Depping, Department for Psychosomatic Medicine, University Medical Center Hamburg-Eppendorf, Hamburg, Germany; Meike C. Shedden-Mora, Department of Psychosomatic Medicine and Psychotherapy, University Medical Center Hamburg-Eppendorf, and Schoen Clinic, Hamburg-Eilbek, Hamburg, Germany

**SPEAKERS:**
1. Annette Burns, Department of Psychology, Royal College of Surgeons in Ireland, Dublin, Ireland
Smoking among people with mental health difficulties – The blind spot

2. P. Hüsing, Department of Psychosomatic Medicine and Psychotherapy, University Medical Center Hamburg-Eppendorf & Schön Clinic Hamburg-Eilbek, Germany
Somatoform Disorder, Somatic Symptom Disorder, Bodily Distress Syndrome, Functional Somatic Syndromes, Persistent Somatic Symptoms: You’ve got it, we name it

3. Giulia Landi, Department of Psychology, University of Bologna, Italy
Examining the Impact of Parental Chronic Illnesses on Children and Adolescents’ Adjustment: Risks and Protective Factors

4. N. Uhlenbusch, Department for Psychosomatic Medicine, University Medical Center Hamburg-Eppendorf, Germany
Why should we address mental health in patients with rare diseases?

5. Jennifer Schmidt, Clinical Psychology and Psychotherapy, University of Wuppertal, Wuppertal, Germany
The influence of technology commitment on the efficacy of HRV-biofeedback for stress-management

**Room 1.6 – DON GIOVANNI**
Somatic Symptom and Related Disorders in Primary Care

**CHAIR:** Christopher Burton, University of Sheffield

**SPEAKERS:**
1. Henriette van der Horst, Department of General Practice and Elderly Care Medicine, Amsterdam Public Health research institute, VU University medical centre, Amsterdam, Holland
The 2-years course of medically unexplained symptoms in different health care settings

2. Tim Olde Hartman, Radboud University Nijmegen Medical Centre, Nijmegen, Holland
Medically unexplained symptoms: time until and triggers for diagnosis in primary care consultations
3. Tom Terpstra, University of Groningen, Holland  
Explanations for medically unexplained symptoms in daily general practice: a qualitative observational study

4. Ingjerd Jossang, University of Bergen, Norway  
Searching for strong sides - general practitioners knowledge of strong sides among patients with medically unexplained symptoms

5. David Riedl, University Hospital for Medical Psychology and Psychotherapy, Innsbruck, Austria  
Prevalence of adverse childhood experiences (aces) in a primary care setting its influence on physical and mental health
THURSDAY, JUNE 28 16.50-18.20

Room T1 - CARMEN
THE IMPACT ON LATER LIFE OF TRAUMATIC EVENTS
AND THE MODULATORY ROLE OF ATTACHMENT

CHAIR: Paul Bebbington, University College London, UK, and Mirella Ruggeri, Section of Psychiatry, Department of Neuroscience, Biomedicine and Movement, University of Verona, Italy

SPEAKERS:
1. Paul Bebbington, University College London, UK
   Mediation of the effects of sexual abuse on psychotic phenomena by affect: directed acyclic graph analyses using two British national survey datasets

2. Wolfgang Söllner, Paracelsus Medical University, General Hospital of Nuremberg, Germany
   The impact of attachment status on improvements in depressive symptoms, emotional exhaustion, and emotion regulation strategies in the in-patient treatment of patients presenting with burnout syndrome

3. S. Tomassi, Department of Neurosciences, Biomedicine and Movement Sciences, Section of Psychiatry, University of Verona, Italy
   The association of childhood trauma with psychotic-like experiences and the role of salivary cortisol levels. An explorative study on healthy subjects from the Italian general population

4. Mariangela De Felice, Section of Psychiatry, Department of Neuroscience, Biomedicine and Movement, University of Verona, Italy
   Eating disorders and subjective impact of traumatic events: the need for innovative interventions

Discussant: Elisabeth Kuipers, Kings College London, UK

Room 1.1 - NABUCCO
The use of the Diagnostic Criteria For Psychosomatic Research (DCPR).
New insights for medical practice
(in cooperation with the Research Group in Psychosomatics – GRP)

CHAIR: Fiammetta Cosci, Department of Health Sciences, University of Florence, Florence, Italy; Luigi Grassi
Institute of Psychiatry, Dept. of Biomedical and Specialty Surgical Sciences, University of Ferrara, Ferrara, Italy

SPEAKERS:
1. Giovanni Andrea Fava, Department of Psychology, University of Bologna, Bologna, Italy
   Diagnostic criteria for psychosomatic research versus DSM in primary care: a comparison

2. Fiammetta Cosci, Department of Health Sciences, University of Florence, Florence, Italy
   Diagnostic Criteria for Psychosomatic Research versus DSM assessment in migraine patients

3. Luigi Grassi, Institute of Psychiatry, Dept. of Biomedical and Specialty Surgical Sciences, University of Ferrara, Ferrara, Italy
   Application of the DCPR versus ICD-10 in nephrology and oncology settings

4. Maria Giulia Nanni, Institute of Psychiatry, Dept. of Biomedical and Specialty Surgical Sciences, University of Ferrara, Ferrara, Italy
   DCPR and ICD-diagnoses among an elderly population: Ment_Dis65+ study
Room 1.2 - RIGOLETTO
THURSDAY 28 16.50-18.20
Technology based self-regulation interventions to improve mental health in psychosomatic conditions

CHAIR: Alexandra Martin, University of Wuppertal, Germany, Jennifer Schmidt, University of Wuppertal, Germany

SPEAKERS:
1. Cornelia Weise, Philipps-University Marburg, Germany
   Using an internet-based treatment approach to reduce the impact of premenstrual syndrome - Results of a randomized clinical trial

2. Jennifer Schmidt, University of Wuppertal, Germany
   Effects of a smartphone-based attention bias modification training on body satisfaction and self-esteem – A randomized controlled pilot study

3. Alexandra Martin, University of Wuppertal, Germany
   Effects of heart rate variability biofeedback in patients with depression – A randomized controlled trial

4. Silvia Golita, Department of Psychology, Babes-Bolyai University, Romania
   Effects of internet-based psychological interventions on emotional distress and quality of life in adult cancer patients: systematic review

Room 1.3 - TURANDOT
The Emerging Role of Psychocardiology – an update 2018

CHAIRS: Karl-Heinz Ladwig, Institute of Epidemiology, Mental Health Research Unit, Helmholtz Zentrum München, German Research Center for Environmental Health, Neuherberg, Germany; Joram Ronel, Department of Psychosomatic Medicine, Clinic Barmelweid, Barmelweid, Switzerland and Department of Psychosomatic Medicine and Psychotherapy, Klinikum rechts der Isar, Technische Universität München, Munich, Germany

SPEAKERS:
1. Roland von Känel, Department of Consultation-Liaison Psychiatry and Psychosomatic Medicine, University Hospital Zurich, Switzerland
   Early psychological counseling to prevent posttraumatic stress induced by acute coronary syndrome: The MI-SPRINT randomized controlled trial

2. Fang Xiaoyan, Institute of Epidemiology, Mental Health Research Unit, Helmholtz Zentrum München, German Research Center for Environmental Health, Neuherberg, Germany
   Being alone in the phase of an acute life threatening coronary event: impact on the patients’ delay time

3. Jian Li, Institute of Occupational, Social and Environmental Medicine, Centre for Health and Society, Faculty of Medicine, University of Düsseldorf, Düsseldorf, Germany
   Title of presentation: Work stress together with impaired sleep increase the risk of cardiovascular mortality in hypertensive workers: findings from the MONICA/KORA cohort study
4. Joram RONEL, Department of Psychosomatic Medicine, Clinic Barmelweid, Barmelweid, Switzerland
Title of presentation: Inflammatory Burden, Coronary Heart Disease and Psychosocial Aspects - Results of the Inflammatory Method Group of the “SPIRR-CAD Trial”

Effectiveness of relaxation therapy in a cardiac rehabilitation program
FRIDAY, JUNE 29 9.30-11.00

Room 1.1 - NABUCCO
Evaluation of recipients in transplantation medicine

CHAIR: Frank Vitinius, University Hospital of Cologne, Cologne(Köln), Germany, Britta S. Bürker, University of Oslo and Oslo University Hospital, Oslo, Norway

SPEAKERS:
1. José R. Maldonado, Stanford University, Stanford, California, USA
Exception Protocol for Liver Transplantation in the Treatment of Fulminant Alcoholic Liver Disease (ID 75)

2. Frank Vitinius, University Hospital of Cologne, Cologne(Köln), Germany
Pretransplant Psychosocial Functioning Predicts Survival Of Patients On Waiting List For Heart Transplantation - Results Of A Prospective Study

3. José R. Maldonado, Stanford University, Stanford, California, USA
Psychosocial Contraindications to Transplant Listing Decisions: a National Survey of USA Solid Organ Transplant Programs (ID 70)

4. Marietta Lieb, Department of Psychosomatic and Psychotherapeutic Medicine, University Hospital of Erlangen, Germany
Measurements of Adherence in Renal Transplant Recipients: What is the best method?

5. Dimitri Belenko, University Health Network, Toronto, Canada
Supporting informed treatment decisions: educating patients about kidney transplant using the explore transplant ontario program

Room 1.2 - RIGOLETTO
Mental health of immigrants and refugees

CHAIR: Yesim Erim, Department of Psychosomatic Medicine and Psychotherapy, University Hospital of Erlangen, Friedrich-Alexander University Erlangen-Nürnberg, Erlangen, Germany

SPEAKERS:
1. Yesim Erim, Department of Psychosomatic Medicine and Psychotherapy, University Hospital of Erlangen, Friedrich-Alexander University Erlangen-Nürnberg, Erlangen, Germany
Prevalence of mental distress in Syrian refugees with residence permission in Germany

2. Julia Schellong, Clinic and Polyclinic for Psychosomatics and Psychotherapy of the Carl Gustav Carus University Hospital, Dresden, Germany
Post migration factors and refugees’ political and legal possibilities to receive mental health care in European countries

3. Eva Morawa, Department of Psychosomatic Medicine and Psychotherapy, University Hospital of Erlangen, Friedrich-Alexander University Erlangen-Nürnberg, Erlangen, Germany
Psycho-social support needs, depression and utilization of psychological/ psychiatric treatment in cancer patients in Germany: a register-based cross-cultural study

4. Doriana Cristofalo, Department of Neuroscience, Biomedicine and Movement Sciences, Section of Psychiatry, University of Verona, Verona, Italy
A comparison of physical health in migrants and natives accessing psychiatric services: an explorative study on data from the Verona Psychiatric Case Register
5. Marta Novak, University Health Network, Toronto, Canada

Ethnic differences in illness intrusiveness among patients with end stage kidney disease

**Room T2-T3 - AIDA**

**Persistent somatic symptoms – novel concepts and innovative research from the EURONET-SOMA group**

**CHAIR:** Bernd Löwe, Department of Psychosomatic Medicine and Psychotherapy, University Medical Center Hamburg-Eppendorf and Schoen Clinic, Hamburg-Eilbek, Hamburg, Germany; Meike Shedden-Mora, Department of Psychosomatic Medicine and Psychotherapy, University Medical Center Hamburg-Eppendorf, and Schoen Clinic, Hamburg-Eilbek, Hamburg, Germany

**SPEAKERS:**
1. Lisbeth Frosthølm, Research Clinic for Functional Disorders and Psychosomatics, Aarhus University Hospital, Aarhus, Denmark

*Explanatory models for persistent somatic symptoms: a systematic review*

2. Judith G. M. Rosmalen, University Center for Psychiatry and Interdisciplinary Center for Psychopathology and Emotion Regulation, University Medical Center Groningen, Groningen, The Netherlands

*Master Your Symptoms: Pilot study of an online toolbox for diagnosis and treatment of functional somatic symptom*

3. Winfried Rief, Department of Clinical Psychology and Psychotherapy, Philipps-University, MARBURG, Germany

*Does complementing cognitive behaviour therapy with emotion regulation training for patients with medically unexplained symptom enhance the outcome? Findings of a multicentre randomized controlled trial*

4. Meike Shedden-Mora, Department of Psychosomatic Medicine and Psychotherapy, University Medical Center Hamburg-Eppendorf, and Schoen Clinic, Hamburg-Eilbek, Hamburg, Germany

*Health care for Persistent Somatic Symptoms across Europe – A qualitative analysis of the Euronet-Soma expert exchange*

5. Omer Van den Bergh, Health Psychology, University of Leuven, Belgium

*Relationship between symptom perception distortion as assessed in different experimental paradigms in patients with functional disorders*

**Room 1.3 - TURANDOT**

**Reconsolidation of maladaptive memories as a therapeutic target: focus on trauma and addiction**

**CHAIR:** Cristiano Chiamulera, Department Diagnostic & Public Health, Università di Verona, Verona, Italy

**SPEAKERS:**
1. Cristiano Chiamulera, Department Diagnostic & Public Health, Università di Verona, Verona, Italy

*Memory as a common pathogenetic element of Addiction and Post-traumatic Disorders*

2. Mauro Cibin, Addiction Department, Public Health Service, Venice, Italy

*Genetics, Trauma, Addiction*
3. Roger Schmidt, Kliniken Schmieder Konstanz, Department of Psychology, University of Konstanz, Germany
   Trauma and addiction – a psychosomatic approach

4. Ina Maria Hinnenthal, Service for Mental Health and Addiction, Imperia, Italy
   Trauma and addiction: Therapeutic aspects

5. Felipe Castillo, Albert Einstein College of Medicine, Bronx, NY, 10467, USA
   Description and evaluation of an academic hospital naloxone distribution pilot program

**Room 1.4 - PARSIFAL**

Improvement of quality of care using new methods

**CHAIR:** Boenink Annette, Consultation-Liaison Psychiatry, VUmc University Hospital, Amsterdam, the Netherlands

**SPEAKERS:**

1. Ferrari Silvia, Department of Diagnostic-Clinical Medicine and Public Health, University of Modena and Reggio Emilia, Modena, Italy
   Are patients with pre-orthotopic liver transplant psychiatric consultation different in bio-psycho-social complexity from other consultation inpatients? A study from a Consultation – Liaison Psychiatric Service

2. Latour Corine, ACHIEVE Centre of Applied Sciences, Faculty of Health, Amsterdam University of Applied Sciences. Amsterdam, the Netherlands
   Who are our complex patients in the hospital, and how to identify them

3. Wild Beate, Department of General Internal Medicine and Psychosomatics, University Hospital, Heidelberg
   Short intervention targeting psychosomatic care in elderly patients with complex health care needs (ASSIST) – a randomized controlled trial

4. Joris Slaets, University Medical Centre Groningen and Leyden Academy on Vitality and Ageing
   A novel approach to use narratives in a routine quality assurance

5. Canova Cristina, DSM of Trieste, Italy
   The project “Mens sana in Corpore sano”. Improving treatments quality for people with strict mental health disorder: health care and local territory

**Room 1.5 - TRAVIATA**

Implementing interventions for persistent somatic symptoms - facilitators, barriers and perspectives

**CHAIR:** Meike Shedden-Mora, Department of Psychosomatic Medicine and Psychotherapy, University Medical Center Hamburg-Eppendorf, and Schoen Clinic, Hamburg-Eilbek, Hamburg, Germany; Denise Hanssen, University Center for Psychiatry and Interdisciplinary Center for Psychopathology and Emotion Regulation, University Medical Center Groningen, Groningen, The Netherlands

**SPEAKERS:**

1. Marco Lehmann, Department of Psychosomatic Medicine and Psychotherapy, University Medical Center Hamburg-Eppendorf; Schoen Clinic, Hamburg-Eilbek, Hamburg, Germany
   Barriers to diagnosis and treatment of persistent and burdensome somatic symptoms in primary care – Results from qualitative interviews with patients and their general practitioners
2. Denise Hanssen, University Center for Psychiatry and Interdisciplinary Center for Psychopathology and Emotion Regulation, University Medical Center Groningen, Groningen, The Netherlands

Barriers and facilitators to implementing interventions for persistent somatic symptoms: A systematic review

3. Denise Hanssen, University Center for Psychiatry and Interdisciplinary Center for Psychopathology and Emotion Regulation, University Medical Center Groningen, Groningen, The Netherlands

Determining the key barriers and facilitators for the implementation of interventions for persistent somatic symptoms in primary care: A Delphi study

4. Meike Shedden-Mora, Department of Psychosomatic Medicine and Psychotherapy, University Medical Center Hamburg-Eppendorf; Schoen Clinic, Hamburg-Eilbek, Hamburg, Germany

Stepped, collaborative, coordinated care for somatoform disorders (Sofu-Net) - A mixed methods evaluation among health care professionals

5. Laura Cassiers, Collaborative Antwerp Psychiatric Research Institute, University Department of Psychiatry, University of Antwerp, Antwerp University Hospital, Antwerp, Belgium

Differential inflammatory and neuroendocrine effects of childhood trauma after inflammatory and psychosocial stress in remitted major depressive disorder

**Room T1 - CARMEN**

The organic nature of functional gastrointestinal disorders: a cross-cultural – multi-professional debate

**CHAIR:** Giovanni Barbara, Department of Medical and Surgical Sciences, University of Bologna, Italy; Ronald Burian, Ev. Krankenhaus “Königin Elisabeth Herzberge” Berlin, Germany

**SPEAKERS:**
1. Nasim Chaudry, Nusrat Husain, Nasim Chaudhry, Pakistan Institute of Living and Learning, Pakistan; Nusrat Husain, University of Manchester, UK

“Do Culturally Adapted interventions work for IBS? Lessons learnt from Pakistan”

2. Dan L. Dumitrascu, Iuliu Hatieganu University of Medicine and Pharmacy Cluj-Napoca, Romania

“Differences in reporting and managing IBS symptoms between some European countries”

3. Ilaria Tarricone, Department of Medical and Surgical Sciences, Bologna University, Italy

“Disease and illness severity: 2 faces of 1 coin or 2 coins of one face? A comparison between IBD and IBS patients at the psychosomatic outpatient unit in Bologna”

4. Wulf Rössler, Charité Berlin Mitte, Department of Psychiatry and Psychotherapy, Universitätsmedizin Berlin, Germany

Nutrition, sleep, physical exercise: impact on mental health

**Room 1.6 – DON GIOVANNI**

Psychosocial responses to stressful life events

**CHAIR:** Michael Linden, Charité University Medicine Berlin, Germany; Maria Giulia Nanni, Institute of Psychiatry, Dept. of Biomedical and Specialty Surgical Sciences, University of Ferrara, Ferrara, Italy

**SPEAKERS:**
1. Luigi Grassi, Institute of Psychiatry, Dept. of Biomedical and Specialty Surgical Sciences, University of Ferrara, Ferrara, Italy
Post-Traumatic Stress Disorder and serotonin transporter in breast cancer patients

2. Michael Linden, Charité University Medicine Berlin, Germany
Injustice, humiliation, and embitterment: frequent and impairing burdens in psychosomatic inpatients.

3. Maria Giulia Nanni, Institute of Psychiatry, Dept. of Biomedical and Specialty Surgical Sciences, University of Ferrara, Ferrara, Italy
Demoralization and embitterment in young people.

4. Rosangela Caruso, Institute of Psychiatry, Dept. of Biomedical and Specialty Surgical Sciences, University of Ferrara, Ferrara, Italy
Post-traumatic growth in advanced cancer patients

5. Valentina Cutrupi, Sapienza - Università di Roma, University, Rome
«What does it mean stress? ». An integrative approach in primary care: general practitioner and psychologist working together

Room 2.6 - BOHEME

Neuroimaging investigation of the trajectory from emotional distress to pathology

CHAIR: Marcella Bellani, UOC Psychiatry, Azienda Ospedaliera Universitaria Integrata, Verona, Italy.

SPEAKERS:
1. Maria Nobile,
Fronto-mesolimbic network and emotions: neuroimaging correlates of risk seeking and avoidance in adolescence

2. Marco Garzitto, IRCCS ‘Eugenio Medea’, Polo del Friuli-Venezia Giulia, Italy
Cortical features of somatization in healthy controls

3. Cinzia Perlini, Section of Clinical Psychology, Department of Neurosciences, Biomedicine and Movement Sciences, University of Verona, Italy
A neurobiological investigation of attachment in first episode psychosis

4. Marcella Bellani, PhD School, Department of Neurosciences, Biomedicine and Movement Sciences, University of Verona, Italy
Effects of alexithymia on cortical surface and thickness in recent onset non-affective psychosis

5. Angela Favaro, Padova Neuroscience Center, Department of Neurosciences, University of Padova, Padua, Italy
Bridging neuroscience research and clinical practice in anorexia nervosa
FRIDAY, JUNE 29 16.30-18.00

Room 1.2 - RIGOLETTO

Updates on the alexithymia construct

CHAIR: Piero Porcelli, University of Chieti, Italy

SPEAKERS:
1. Olivier Luminet, Université catholique de Louvain and Belgian Fund for Scientific Research, Belgium
   Predicting long-term post-partum depression. The contribution of alexithymia over and above neuroticism, rumination, and self-esteem

2. Chiara Conti, University of Chieti, Italy
   Alexithymia and binge eating in patients on a weight-loss program

3. Cristina Scarpazza, University of Padua, Italy, and King's College London, UK
   Alexithymia, emotional embodiment and interoception

4. Piero Porcelli, University of Chieti, Italy
   Alexithymia and cardiovascular disease risk in healthy adults

5. Marco Torrado, University Clinic of Psychiatry and Medical Psychology, Faculty of Medicine, University of Lisbon, Portugal
   Emotion regulation and behavioral addictions: links between problematic internet use, impulsivity and alexithymia

Room 1.3 - TURANDOT

People have the Power: The role of Connection in Group Interventions Across Healthcare Settings

CHAIR: Ken Schwartz, Baycrest, Canada; Ronald Burian, Krankenhaug Konigus Elisabeth Hewrzberge, Berlin, Germany

SPEAKERS:
1. Dr. Ken Schwartz, Dr. Robert Madan

2. Inga-Marlen Pontow, Evangelisches Krankenhaus Königin Elisabeth Herzberge, Psychosomatic Day Treatment Unit, Berlin, Germany
   Acceptance and Commitment Group Therapy for Diabetes and Psychiatric Co-morbidities

3. Dr. Mary Elliot, Toronto General Hospital, Canada
   MBCT for Young Adults with Cancer

4. Dr. Miriam Depping, University of Medical Center Hamburg-Eppendorf
   A Self-Management Intervention with Peer Support for People with Rare Illnesses

5. K. Griva, Lee Kong Chian School of Medicine, Nanyang Technological University, Singapore
   Associations between health literacy and healthcare utilization in patients with coexisting diabetes and end stage renal disease
Room 1.4 - PARSIFAL
Innovative liaison – how to investigate physicians’ lived experience and why it matters

CHAIR: Stiefel Friedrich, Psychiatric Liaison Service, University Hospital Lausanne, Switzerland

SPEAKERS:
1. Bourquin Celine, Psychiatric Liaison Service, Lausanne University Hospital, Switzerland
   Stories physicians tell about their professional experience: a qualitative study

2. Stiefel Friedrich, Psychiatric Liaison Service, University Hospital Lausanne, Switzerland
   A comparison of physicians’ professional experience in Japan and Switzerland: what shapes more, the medical universe or culture?

3. Saraga Michael, Psychiatric Liaison Service, University Hospital Lausanne, Switzerland
   The development of a professional experience expression group for internal medicine residents: matters of concern and of interest

4. Konstantinos Tzartzas, Psychiatric Liaison Service, University Hospital Lausanne, Switzerland
   Clinical decision-making processes of practitioners referring patients to a specialist

5. Ching-Fen Huang, Department of Healthcare Administration, I-Shou University, Kaohsiung, Taiwan
   The risk of depression differs in informed patients with colorectal cancer

Room 1.5 - TRAVIATA
Managing the maddening complexities in health care settings

CHAIR: Steven Frankel MD, University of California, San Francisco, USA

SPEAKERS:
1. Øystein M. Christiansen, Psychiatric Outpatient dept., The Central Hospital in Førde, Norway
   Reconstructing Babylon – communication problems contributing to medical complexities

2. Joost Merten, De Velse GGZ / Antonius Hospital, Sneek, The Netherlands
   On Dutch Bureaucracy, a serious comorbid disorder

3. Steven Frankel, University of California San Francisco, USA
   The San Francisco INTERMED Self-Assessment Validation Study

4. Ronald Burian, Evangelisches Krankenhaus „Königin Elisabeth Herzberge, Berlin, Germany
   Visualizing complexity: The ACT-matrix as a crossdiagnostic and transcultural clinical tool

5. Katy Burke, Psychological Medicine Research, Department of Psychiatry, Warneford Hospital, University of Oxford, United Kingdom
   The experiences and views of hospital doctors who have discussions about resuscitation with older medical inpatients: a qualitative interview study
**Room 1.6 – DON GIOVANNI**

From Childhood to Adulthood: the influence of adverse childhood experiences on the physical and mental health in adults and approaches to prevent current violence in adulthood

CHAIR: Astrid Lampe, Medical Psychology and Psychotherapy, Medical University Innsbruck, Austria
Julia Schellong, University Hospital Dresden, Germany

SPEAKERS:
1. David Riedl, Medical Psychology and Psychotherapy, Medical University Innsbruck
The influence of adverse childhood experiences on physical and mental health in adults

2. Astrid Lampe, Medical Psychology and Psychotherapy, Medical University Innsbruck, Austria
The effect of emotional and physical violence amongst peers on physical and mental health in adults

3. Julia Schellong, University Hospital Dresden, Germany
Domestic violence and intimate partner Violence - a challenge within the health care sector. Result of a survey among physicians

4. Astrid Lampe, Medical Psychology and Psychotherapy, Medical University Innsbruck, Austria
Sensitization training of medical staff regarding domestic violence at the Innsbruck university hospital

5. M. Purgato, WHO Collaborating Centre for Research and Training in Mental Health and Service Evaluation Department of Neuroscience, Biomedical and Movement Sciences, Section of Psychiatry, University of Verona, Verona, Italy
Addressing stress, depression, and anxiety in people exposed to traumatic events in humanitarian settings: a systematic review and meta-analysis of psychosocial interventions

**Room 1.1 - NABUCCO**

The body, the mind and the gut: psychosomatic approach of digestive diseases

CHAIR: Adriana Baban, Mladenka Tkalcic, University Babes-Bolyai, Dept. Psychology, Cluj-Napoca, Romania

SPEAKERS:
1. Mihaela Fadgyassi-Stanculete, Iuliu Hatieganu University of Medicine and Pharmacy Cluj-Napoca Romania
Anger: a link between chronic pain and coping mechanisms in IBS patients?

2. Branka Filipovic, University of Belgrade, Faculty of Medicine, Serbia
Characteristics of headache in patient with functional dyspepsia and irritable bowel syndrome

3. Dan L. Dumitrascu, Iuliu Hatieganu University of Medicine and Pharmacy Cluj-Napoca Romania
Attitude toward fecal transplantation

4. Branislav Filipovic, University of Belgrade, Faculty of Medicine, Serbia
Central nervous system related extraintestinal manifestations in gastrointestinal functional disorders suffering patients

5. Paul Hüsing, Department of Psychosomatic Medicine and Psychotherapy, University Medical Center Hamburg-Eppendorf & Schön Clinic Hamburg-Eilbek, Germany
Application of the bds checklist within a patient sample from a psychosomatic outpatient clinic in Germany
**Room 2.6 - BOHEME**

Clinical Pathways: A tool for improving mental health outcomes in medical settings

CHAIR: Khyati Brahmbhatt, University of California, San Francisco, USA

SPEAKERS:
1. Khyati Brahmbhatt, Department of Psychiatry & Langley Porter Psychiatric Institute, UCSF Weill Institute for Neurosciences, UCSF Benioff Children's Hospital, University of California, San Francisco, USA
   Suicide Risk Screening in medical hospitals: A clinical pathway to address a global crisis.

2. Sigita Plioplys, Department of Child and Adolescent Psychiatry at Lurie Children's Hospital, Northwestern University, USA
   Somatic symptoms in medical hospitals - A clinical pathway to improve care

3. Gabrielle Silver, Department of Psychiatry, Weill Cornell Medical College, USA
   Preventing, recognizing, and managing delirium in medical hospitals – Use of a Clinical Pathway

4. Simona Tomassi, Infectious Disease, AOUI Hospital Trust of Verona, Verona, Italy
   Hepatitis c patients: resilience and vulnerability for depression and anxiety

5. Michela Rimondini, Section of Clinical Psychology, University of Verona, Italy
   Involving psychiatric patients in their safety: a mixed-method study with focus groups

**Room T2-T3 - AIDA**

Sleep Hygiene and Well-being

(in cooperation with the Italian society of Psychosomatic Medicine – SIMP; the Italian Society of Consultation-Liaison Psychiatry – SIPC; the Alta Scuola Italiana per la Lotta allo Stigma – ASILS)

SIMULTANEOUS TRANSLATION ITALIAN-ENGLISH

CHAIR: Marina Farinelli, Dept. Psychology, University of Bologna, and Psychological Service, "Villa Bellombra", Bologna, Italy; Luigi Grassi Institute of Psychiatry, Dept. of Biomedical and Specialty Surgical Sciences, University of Ferrara, Ferrara, Italy

SPEAKERS:
1. Lino Nobili, Sleep Medicine Center, Dept. Neurosciences, Niguarda Hospital, Milan, Italy
   Body-mind aspects of Sleep

2. Paolo Girardi, Institute of Psychiatry, School of Medicine and Psychology, Sapienza University, Rome, Italy
   The meaning of sleep and well-being

3. Antonino Minervino, Mental Health Department, Local Health Authorities, Cremona, Italy
   Sleep and preconception

4. Rosangela Caruso, Institute of Psychiatry, Dept. of Biomedical and Specialty Surgical Sciences, University of Ferrara, Ferrara, Italy
   Integrated Treatment of Sleep disorders: psychosomatic implications
5. Chee Ng, Department of Psychiatry, University of Melbourne, Melbourne, Victoria, Australia
Relationship of sleep duration with demographics, lifestyle, mental health, and chronic diseases

Room T1 - CARMEN
A Guide to Antiretroviral and Psychotropic Medication Management for HIV Care Across the Adult Lifespan Course for HIV Clinicians

CHAIR: Adriana Carvalhal, Department of Psychiatry, University of Toronto, Canada

SPEAKERS:
1. Adriana Carvalhal, Department of Psychiatry, University of Toronto, Canada
   HIV-associated neurocognitive disorder (hand) treatment in the era of antiretroviral therapy

2. Kelly Cozza, Department of Psychiatry, Uniformed Services University of the Health Sciences, Bethesda, USA
   Choosing and managing conventional and atypical antipsychotic medications in adults with HIV/AIDS

3. Jordi Blanc, Department of Psychiatry, University of Barcelona, Barcelona, Spain
   Guide to the pharmacological treatment of depression and anxiety in adults with hiv/aids (workshop: a guide to antiretroviral and psychotropic medication management for hiv care across the lifespan)

4. Luis Pereira, Columbia University Medical Center, New York, USA
   Making sense of antiretrovirals for hiv: update and overview of current treatment for all clinicians

5. Steven Frankel, University of California, San Francisco, USA
   Mild Cognitive Impairment in a 50+ year old HIV Population
SATURDAY, JUNE 30 10.00-11.30

Room 1.2 - RIGOLETTO

Chronic Pain and Somatisation across the Life Span

CHAIR: Antonella Ciaramella, Psychosomatic Center, GIFT Institute of Integrative Medicine, Pisa, Italy; Anne-Françoise Allaz, University Hospitals and University of Geneva, Switzerland

SPEAKERS:
1. Anne-Françoise Allaz, Professor of internal medicine, University Hospitals and University of Geneva, Switzerland
   The role of emotional factors on the expression of unexplained chronic pain in the elderly

2. Ronald Burian, Evangelic Hospital Königin Elisabeth Herzberge, Department of Psychiatry, Psychotherapy and Psychosomatics, Berlin, Germany
   Do elderly pain patients regain quality of life in a multimodal trans-diagnostic ACT-based group treatment?

3. Antonella Ciaramella, Psychosomatic Center, GIFT Institute of Integrative Medicine, Pisa, Italy; Lecturer in the Department of Surgical Pathology and Clinical Area, University of Pisa, Italy
   Relationship between emotional awareness, pain and somatization in primary school children

4. Christian Andreas Brünahl, Department of Psychosomatic Medicine and Psychotherapy, University Medical Centre Hamburg-Eppendorf and Schön Klinik Hamburg Eilbek, Hamburg, Germany
   Psychopathological factors and myofascial findings in male and female patients with chronic pelvic pain syndrome (CPPS) across the life span

5. Amnon Mosek, Deputy Chief, the Section of Neurology, The Headache and Physical Empowerment Clinics, Department of Neurology, Tel Aviv Medical Center, Tel Aviv
   An internal inferno: sexual abuse and childhood victimization as a cause of pain and somatization in adulthood

Room 1.1 - NABUCCO

Narrative-Based Medicine: clinical and research implications of this model, in a psychosomatic approach to illness and care

CHAIR: Michela Rimondini, Department of Neuroscience, Biomedicine and Movement, Section of Clinical Psychology, University of Verona, Italy

SPEAKERS:
1. Michela Rimondini, Department of Neuroscience, Biomedicine and Movement, Section of Clinical Psychology, University of Verona, Italy
   The Taboo of parents’ illness: Storytelling as an instrument to facilitate the dialogue among parents, teachers and children

2. Maria Luisa Martino, Department of Humanistic Studies, University of Naples Federico II, Italy
   Diachronic narrative markers for processing breast cancer experience

3. Dina Di Giacomo, University of L’Aquila, Italy
   Psychological Resilience in Early Breast Cancer Young Patients: experience in Real Life

4. Giuseppe Deledda, Service Clinical Psychology, Sacro Cuore - Don Calabria Hospital of
A patient will tell how narrative medicine has positively impacted the story of his illness and recovery
The Story of Tommaso

Room 1.4 - PARSIFAL
EPIDEMIOLOGY OF THE FUNCTIONAL SOMATIC SYNDROMES: STUDIES IN THE NETHERLANDS AND DENMARK

CHAIR: Judith Rosmalen, Professor of Psychosomatic Medicine, University of Groningen; Torben Jørgensen, Professor of Epidemiology and Public Health, University of Copenhagen

SPEAKERS:
1. Francis Creed, University of Manchester, UK
The risk factors for new onsets of Irritable Bowel Syndrome, Chronic Fatigue Syndrome and Fibromyalgia: the Lifelines study

2. Marie Pedersen, Center for Clinical Research and Prevention, Bispebjerg and Frederiksberg Hospital, The Capital Region of Denmark, Denmark
The correlates of Irritable Bowel Syndrome, Chronic Fatigue Syndrome and Fibromyalgia: the DanFunD study

3. Marie Eliasen, Center for Clinical Research and Prevention, Bispebjerg and Frederiksberg Hospital, Capital Region, Copenhagen, Denmark
Risk factors and characteristics of eight somatic symptom profiles derived by latent class analysis in the DanFunD study

4. Monica Joustra, University Medical Center, Groningen, The Neatherland
The network structure of diagnostic criteria for CFS, FMS and IBS

5. Marie Weinreich Petersen, Research Clinic for Functional Disorders and Psychosomatics, Aarhus University Hospital, Denmark
Characteristics of functional somatic syndromes and bodily distress syndrome in the general Danish population – the DANFUND STUDY

Room 1.5 - TRAVIATA
Advances in the use of psychototropic drugs in people with severe medical conditions needing palliative interventions: evaluating efficacy, safety, and feasibility issues.

CHAIR: Corrado Barbui and Giovanni Ostuzzi, Section of Psychiatry, Department of Neuroscience, Biomedicine and Movement, University of Verona, Italy

SPEAKERS:
1. Giovanni Ostuzzi, WHO Collaborating Centre for Research and Training in Mental Health and Service Evaluation, Department of Neuroscience, Biomedicine and Movement Sciences, Section of Psychiatry, University of Verona, Verona, Italy
The continuum of depressive experiences in cancer patients and the role of antidepressants. Results from a systematic review and meta-analysis.

2. Rosangela Caruso, Department of Biomedical and Specialty Surgical Sciences University of Ferrara; Psychiatry Unit, Integrated Department of Mental Health and Addictive Disorders; S. Anna University Hospital and Health Authorities, Ferrara, Italy
Efficacy of antidepressants on depression, anxiety and quality of life in patients with neuropathic pain. Results from a systematic review and meta-analysis.

3. Giulia Turrini, WHO Collaborating Centre for Research and Training in Mental Health and Service Evaluation, Department of Neuroscience, Biomedicine and Movement Sciences, Section of Psychiatry, University of Verona, Verona, Italy
Antidepressants for the treatment of depressive symptoms in adult patients with ischemic heart disease

4. Augusto Tommaso Caraceni, Unit of Pain Therapy, Palliative Care and Rehabilitation; National Cancer Institute of Milan (INT), foundation and government-designated Centre for treatment and research (IRCCS), Italy
Pharmacological strategies to treat delirium and agitation in palliative care

5. Elena Saugo, Section of Psychiatry, Department of Neuroscience, Biomedicine and Movement, University of Verona, Italy
Determinants of anthropometric and cardio-metabolic alterations in early psychosis patients: a follow-up study

**Room T1 - CARMEN**

The role of trauma and life events on physical and mental health

**CHAIR:** Sarah Tosato, Section of Psychiatry, Department of Neurosciences, Biomedicine and Movement Sciences, University of Verona, Verona, Italy

**SPEAKERS:**
1. Claudia Carmassi, Department of Clinical and Experimental Medicine, University of Pisa, Italy
   Traumatic life events and bipolar disorder: new hypotheses of interaction

2. Umberto Albert, Department of Biomedical and Neuromotor Sciences, Alma Mater Studiorum University of Bologna, Italy
   The role of traumatic life events in mediating suicide risk in Obsessive-Compulsive Disorder

3. Sarah Tosato, Section of Psychiatry, Department of Neurosciences, Biomedicine and Movement Sciences, University of Verona, Verona, Italy
   The impact of childhood trauma on biomarkers related to glucose metabolism in First-episode psychosis patients and in healthy subjects.

4. Giuseppe Carrà, Department of Medicine and Surgery, University of Milano Bicocca, Milan, Italy
   Trauma, metabolic syndrome and obesity

5. Kristin Graham, The University of Adelaide, Centre for Traumatic Stress Studies, Adelaide, Australia
   Exploring physical symptoms associated with posttraumatic stress disorder by applying machine-learning techniques
Room T2-T3 - AIDA

A psychosomatic person-centred approach in the organization of mental health services
(in cooperation with the Italian Society of Consultation-Liaison Psychiatry – SIPC; the Italian society of Psychosomatic Medicine – SIMP; the Alta Scuola Italiana per la Lotta allo Stigma – ASILS)
SIMULTANEOUS TRANSLATION ITALIAN-ENGLISH

CHAIR: Luigi Grassi, Department of Biomedical and Specialty Surgical Sciences University of Ferrara; Matteo Balestrieri, Institute of Psychiatry, Department of Experimental and Clinical Medical Sciences University of Udine, Udine Italy

SPEAKERS:

1. Maria Giulia Nanni, Luigi Grassi, Institute of Psychiatry, Dept. of Biomedical and Specialty Surgical Sciences, University of Ferrara, Ferrara, Italy
Dignity and stigma in somatic and psychiatric disorders

2. Paolo Girardi, Institute of Psychiatry, School of Medicine and Psychology, Sapienza University, Rome, Italy
Health and Integrated Care Pathways

3. Antonino Minervino, Mental Health Department, Local Health Authorities, Cremona, Italy
Person-centred Job Organization

4. Silvia Ferrari, Institute of Psychiatry, Dept. of Diagnostic and Clinical Medicine, and Public Health, University of Modena & Reggio Emilia, Modena, Italy
Prevention and Treatment of burnout

5. Laura Iozzino, Section of Psychiatry, Department of Neurosciences, Biomedicine and Movement Sciences, University of Verona, Italy
Medical comorbidities in patients receiving residential treatment: results from the VALERE (Evaluation of Outcome in Residential Facilities) PROJECT

Room 1.3 - TURANDOT

Optimizing medical consultations in primary care?

CHAIR: Hans-Christian Deter, Charité Universitätsmedizin Berlin, Medical Clinic, Division of Psychosomatic Medicine, Germany; Kurt Fritzsche, University Medical Center Freiburg, Germany

SPEAKERS:

1. Hans-Christian Deter, Charité Universitätsmedizin Berlin, Medical Clinic, Division of Psychosomatic Medicine, Germany
How can General practitioners improve the quality of their care?

2. Maria Angela Mazzi, University of Verona – Section of Clinical Psychology, Italy
How socio-demographic characteristics influence patients’ preferences regarding the reciprocal roles that should be taken during the consultation with their doctor

3. Christopher Burton, University of Sheffield, UK
What aspects of consultations do patients value most?

4. Bohdan Wasilewski, Psychosomatic Institute, Warsaw, Poland
Evaluation of the nationwide training campaign of the primary health care personnel in Poland in the field of the ability to recognize and prevent the patient’s psychological problems
5. **Antonio Bordallo Aragón**, Department of Personality, Assessment and Psychological Treatment, University of Málaga, Campus Teatinos, Málaga, Spain

Factors associated with the use of primary care services in patients with schizophrenia and related disorders

**Room 1.4 - PARSIFAL**

**Psychosocial and psychosomatic issues in oncology and palliative care**
(in cooperation with the Italian Society of Psycho-Oncology – SIPO)

**CHAIR:** Paolo Gritti, Dept. of Mental and Physical Health and Prevention, University of Campania, Naples, Italy; Mirella Ruggeri Section of Psychiatry, Department of Neuroscience, Biomedicine and Movement, University of Verona, Italy Institute of Psychiatry

**SPEAKERS:**

1. Paolo Gritti, Dept. of Mental and Physical Health and Prevention, University of Campania, Naples, Italy

Similarities and differences of psychosomatic and psychosocial approaches to cancer patients

2. Riccardo Torta, Dept. of Neurosciences Rita Montalcini, University of Turin, Italy

Cognitive and emotional aspects of pain

3. Maria Giulia Nanni, Institute of Psychiatry, Dept. of Biomedical and Specialty Surgical Sciences, University of Ferrara, Ferrara, Italy

Depression, Demoralization and Distress in oncology: a psychosomatic approach

4. Rosangela Caruso, Institute of Psychiatry, Dept. of Biomedical and Specialty Surgical Sciences, University of Ferrara, Ferrara, Italy

Psychotherapeutic intervention in palliative care

5. Luisa Nadalini, U.S.D. Psicologia Clinica BT, Azienda Ospedaliera Universitaria Integrata, AOUUI-Verona, Italy

Emotional status and risk communication an integrated oncogenic setting for BRCA1-2 in 441 patients
